PROFESSIONAL SUMMARY

Software Engineering student with a strong foundation in Java, Data Structures & Algorithms, and backend application development using Spring Boot. Experienced in building AI-powered applications with Python, FastAPI, and Large Language Models (LLMs). Interested in developing scalable backend systems and intelligent software by combining modern engineering practices with AI

WORK EXPERIENCE

Associate Junior Developer Intern

June, 2025 - September, 2025

DigiCoders Technologies Private Limited | Lucknow, Uttar Pradesh, India

- Built and maintained web applications using Java, JSP, JDBC, and MySQL.
 - Contributed to frontend development, backend integration, debugging, and testing.
-

EDUCATION

REC,Basti (AKTU)

(3rd Year) B.Tech in Computer Science Engineering

Board of Technical Education

Diploma in Computer Science Engineering

KEY SKILLS

- **Programming Languages:** Java, Python, SQL
- **Backend Development:** Spring Boot, Spring Framework, Spring MVC, RESTful APIs, Spring Security, JWT Authentication, OAuth2, JSP, JDBC, JPA, Hibernate, Maven
- **Artificial Intelligence:** Large Language Models (LLMs), Prompt Engineering, Structured Outputs, Retrieval-Augmented Generation (RAG), AI Agents, Tool Calling, LangGraph, Model Context Protocol (MCP), Multi-Agent Systems, LLM Evaluation, Guardrails, FastAPI, Groq API
- **Databases:** MySQL
- **Tools & Technologies:** Git, GitHub, Postman, IntelliJ IDEA, VS Code
- **Core Computer Science:** Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks
